

PERFECT WEATHER AND GREAT ATMOSPHERE AT THE ROTAX FLY-IN 2019

© 2019 BRP-Rotax GmbH & Co. KG

Gunskirchen, Austria, September 03rd, 2019 – Perfect weather conditions and an exciting program awaited the guests of the Rotax Fly-In 2019 at the Aerodrome Wels from August 30th – September 01st, 2019. Pilots were flying into Wels not only from Austria but also from the neighbor countries France, Czech Republic, Luxembourg, Italy and Germany and enjoyed a relaxed weekend amongst like-minded.

“The Rotax Fly-In offered a great possibility to talk to fellow pilots and aircraft enthusiasts”, said Peter Oelsinger, General Manager BRP-Rotax / Member of the Management Board, Vice President Sales, Marketing RPS-Business & Communications. “The guests were really enjoying the atmosphere and the chance to experience a demo flight in different aircraft.”

The Rotax Fly-In program offered not only demo flights, simulators, Q&A sessions and evening entertainment with BBQ but also a highly-anticipated company tour to have a look at the state-of-the-art facilities of BRP-Rotax. The participants of the Rotax Fly-In – amongst them also ten BRP-Rotax employees who were the lucky winners of entry tickets awarded at an internal employees’ lottery - enjoyed a nice event and asked already if there will be a next Fly-In. Therefore please stay tuned for possible future Rotax Fly-In activities and register to our newsletter on www.fly-rotax.com.

With more than 180,000 engines sold in more than 40 years, Rotax aircraft engines lead the light sport and ultra-light aircraft market. With 17 authorized distributors and a network of more than 220 points of sale and repair centres supporting customers worldwide, Rotax aircraft engines are supplied to more than 80% of all aircraft manufacturers in its segment.

**About BRP-Rotax:**

BRP-Rotax GmbH & Co KG, a subsidiary of BRP Inc., located in Gunskirchen, Austria is a leader in the development and production of innovative 4- and 2-stroke high performance Rotax powertrains for BRP products such as Ski-Doo and Lynx snowmobiles, Sea-Doo watercraft, Can-Am On- and Off-Road vehicles as well as for karts, motorcycles and ultra-light and light aircraft. In the last 50 years, the company has developed more than 350 engine models for recreational vehicles and produced over 9 million engines.
